**DETAILED ACTION**

***Claim Rejections - 35 USC § 102***

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 26-39 and 41-46 are rejected under 35 U.S.C. 102(b) as being anticipated by Nielsen, U.S. Patent No. 4,169,736 (hereinafter "Nielsen"). The claims are examined in the broadest light possible. Nielsen teaches an improving additive for cement and related masses based on an inorganic binder (e.g., lime) comprising an alkali extract of lingo-cellulosic materials, the extract being modified with a fatty acid or an oily ester (the alkali extract modified with fatty acid corresponds to a monovalent cation salt of a carboxylic acid). See Nielsen, Abstract; col. 1, line 62 through col. 2, line 2. The alkali extract modified with fatty acid has varying amounts as additives to the cement or lime grout. See Nielsen, col. 2, line 30-68. Nielsen also teaches the addition of a synthetic

binder such as a polyacrylate. See Nielsen, col. 3, lines 50-68. The Examiner contends the alkali extract is derived from an alkali metal.

3. Claim 40 is objected to for depending on a rejected base claim.

4. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

5. A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
